LIST OF TABLES	vi
LIST OF FIGURES	vii
LIST OF SYMBOLS	ix
1 INTRODUCTION	1
1.1 Literature Survey	1
1.2 The Aim of the Study	3
2 THEORETICAL STUDY	4
2.1 Transient Heat Conduction in Walls, Cylinders and Spheres	4
2.2 Initial and Boundary Conditions	7
2.2.1 Initial Condition	7
2.2.2 Boundary Conditions	7
2.2.2.1 Specified Temperature Boundary Condition	8
2.2.2.2 Specified Heat Flux (Symmetry) Boundary Condition	8
2.2.2.3 Convection Boundary Condition	8
2.3 Analytical Solution	10
2.3.1 Large Plane Wall	10
2.3.1.1 Nondimensionlizing Differential Equation	10
2.3.1.2 Analytical Solution with Separation of Variables	12
2.3.2 Long Cylinder	16
2.3.2.1 Nondimensionlizing Differential Equation	16
2.3.2.2 Analytical Solution with Separation of Variables	18
2.3.3 Solid Sphere	23
2.3.3.1 Nondimensionlizing Differential Equation	23
2.3.3.2 Analytical Solution with Separation of Variables	25
