

ACKNOWLEDGEMENTS

All praise and glory to almighty ALLAH, the lord of the universe, who is the entire source of all knowledge and wisdom endowed to mankind. All thanks are due to him who gave me the ability and patience throughout my studies for completing this task.

I would like to thank my thesis supervisor PROF. DR.DOĞAN İBRAHİM for his intellectual support, encouragement and enthusiasm which made it possible to accomplish this thesis. I appreciate his most gracious encouragement and very valued constructive critics given to me throughout my education.

I would like to acknowledge the supports of my MOTHER AND FATHER (ASSOC.PROF.DR FAE'Q RADWAN) who have brought all of their efforts to support me, without knowing the return, and who have patiently encouraged me to be the best everywhere.

My special thanks goes to NEU educational staff, especially to computer engineering teaching staff for their generosity and special help and support given to me throughout my studies at the NEU.
