ACKNOWLEDGMENT

We would like to thank our teachers Mr. Dr. Yalçın AKÇALI and Miss Nadire ÇAVUŞ for their help to us.

ABSTRACT

The program that I prepared include advertisement information record, account process, customer and firm information record.

There are four section in main menu and you choose a section according to your working.

Each section included that add,delete,upgrade,list, list of all information and print menu.

If you choose advertise information menu then you choose a one section according to your working. If you choose a add menu then you enter the advertise information. If you want to delete this information then you choose a delete menu and enter the company name and delete this

information. Company reached all information with saving this information.

In the customer information menu or firm information menu you can receive the all information about of customer or firm.

In the account process menu you can receive the debit and credit information.

The general target of the program is help to personel of the firm and customers to find informations easier and quickly.

INTRODUCTION

Before using the program you must check your computer. If you have the clipper compiler you can use it if not you must install the compiler to your computer.

To enter the program first you must write:

C:\CL EYES

C:\EYES

After that you must enter the password to enter the program.

In our project there seven databases and five choices in the main menu. The databases are:

1-ADVERTISE DATABASES(1.NEWSPAPER DB ,2.BROCHURE DB ,3. OTHER DB)

2-ACCOUNT DATABASES(1.DEBIT DB , 2. CREDIT DB)

3-CUSTOMER DATABASE

4-SUPPLIER DATABASE

The choices in the main menu are:

1- ADVERTISE INFORMATION

2- ACCOUNT PROCESS

3- CUSTOMER INFORMATION

4- SUPPLIER INFORMATION

5- EXIT

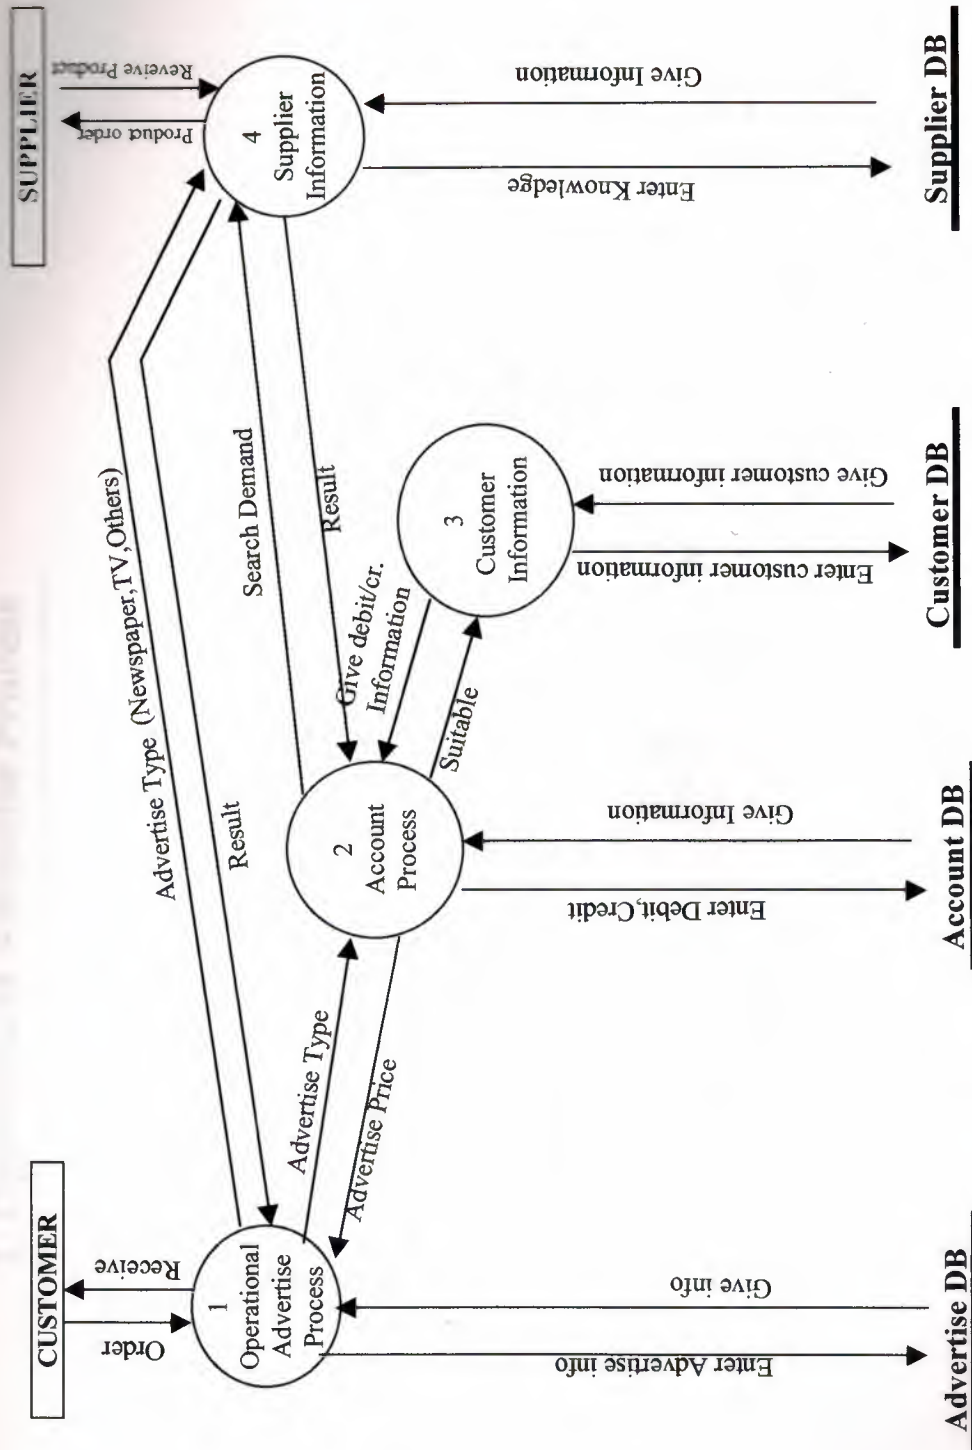

In the program every choice's explanation is written at the bottom of each page.
