I. ACKNOWLEDGEMENTS

We would like to thanks Dr. Yalçın Akçalı, Miss Nadire Çavuş and Mr. Ümit İlhan who are our teachers, and they are helped us during making this project and whenever we knock their door they never refuse our questions during the preparing our graduation project.

We also would like to thanks the people who create internet source of <http://vbasic.bilgisi.com>. This site was very helpfull for us for programming in Visual Basic.

II. ABSTRACT

This project is about BMW Repair and Part Selling Garage. This BMW Garage, sells their customers parts and repairing their customers broken cars or making routine services to their cars. There are four types of BMW models. These are; 3., 5., 7. and z3 models. This Garage has all BMW models of parts, which Garage sell those parts separately or using them in the service.

This program will help the workers in the garage about searching parts and customers for their information. Before computers, this processes were doing by manual but it was very hard to put into file by manual. So This program allows users to adding, deleting, upgrading, searching the parts and the customers by computer. This program also allows the managers to see the lists of daily / weakly / mounthly accounts reports.

III. INTRODUCTION

This program written to BMW GARAGE for recording parts which the Garage buys them to sell customers, and to use them in the service Garage to repair customer cars. With this program user can add parts to stock, search any wanted part, list all parts in the stock and delete them if the Garage will not selling them anymore.

This program allow user to sell part by cash and by installment. If the selling process making in installment then user saves all information about customer and the parts which the customer bought.

The same processes happining in the Repair section ass well. The Garage also have employees, so this program also allows users to records all information about employee.

The last thing about program is to see what this Garage paid for what and how much money will get or got from customers.

This program has been programmed with Visual Basic 6.0. The database of te program is the Microsoft Access. If user wants to execute this program in Visual Basic design view, the user must install VB 6 into his / her computer. Also there are some *.ocx extensions which the user must copy and past from cd into the (c:\windows\system) files. The *.ocx extensions are about animations (Anigif.ocx).

To install VB 6 into computer needs about 6 mb harddisc space. You can find the information about installation in USER MANUAL part of the documents.

The Main menu of the program are the consists of several sections. These are;

MAIN MENU

This Main Menu have its Sub Menus as well. These are;

SUB MENUS OF PARÇA

| BMW GARAGE - [ANA MENU] | |
|-------------------------------|---------------------------------------|
| PARÇA | TAMİR MÜŞTERİ MUHASEBE PERSONEL ÇIKIŞ |
| Alış | Yeni Kayıt |
| Güncelleme Ve TAKSİT YATIRIMI | Eski Kayıta Ekleme |
| Satış | |
| Arama | Parça İsmi İle Arama ... |
| Parça Listeleme | |
| Silme | |

PARÇA: Have sub menus of Buying (Alış), Update & Installment Payment (Güncelleme Ve TAKSİT YATIRIMI), Selling (Satış), Searching (Arama), Listing (Listeleme) and Deleting (Silme) Parts. Buying (Alış) and Searching (Parça İsmi İle Arama) have also its submenus.

SUB MENUS OF TAMİR

| BMW GARAGE - [ANA MENU] | |
|-------------------------|---------------------------------------|
| PARÇA | TAMİR MÜŞTERİ MUHASEBE PERSONEL ÇIKIŞ |
| | Yeni Kayıt |
| | Eski Kayıt |
| | Arama |
| | Güncelleme |
| | Silme |

TAMİR: Have sub menus of New Reg. (Yeni Kayıt), Adding To Old registered (Eski Kayıt), Searching (Arama), Updating (Güncelleme) and Deleting (Silme) processes.

SUB MENUS OF MÜŞTERİ

| BMW GARAGE - [ANA MENU] | |
|-------------------------|---------------------------------------|
| PARÇA | TAMİR MÜŞTERİ MUHASEBE PERSONEL ÇIKIŞ |
| | PARÇA Taksit Yatırımı |
| | TAMİR Taksit yatırımı |
| | Arama |
| | Müşteri Listeleme |
| | Güncelleme |
| | Silme |

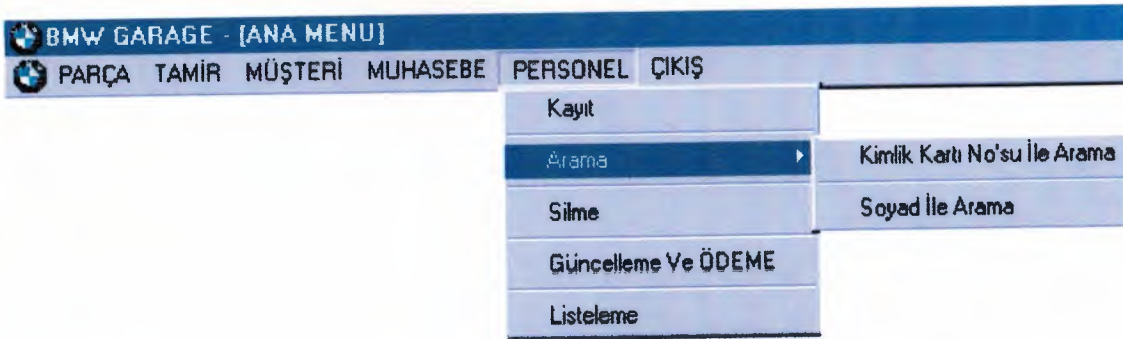

MÜŞTERİ: Has sub menus of Part Installment Payment (Parça Taksit Yatırımı), Repair Installment Payment (Tamir Taksit Yatırımı), Searching (Arama), Listing (Listeleme), Updating (Güncelleme) and Deleting (Silme) processes

SUB MENUS OF MUHASEBE

MUHASEBE: Have sub menus of Listing revenue (Gelirler), Expenses (Giderler) and has Entering other Expenses (Diğer Giderler Girişi).

SUB MENUS OF PERSONEL

PERSONEL: Have the sub menus of Adding (Kayıt), Searching by Id No (Kimlik Kartı No'su İle Arama) or By Surname (Soyad İle Arama), Deleting (Silme), Updating & Paying (Güncelleme Ve Ödeme) and listing (Listeleme) Processes.

ÇIKIŞ: Exiting from program.

MINIMUM SYSTEM REQUIREMENTS TO EXECUTE PROGRAM

Windows 95
4 Gb harddisc
4 Mb VGA
233 Mhz Processor
64 Mb Ram
800 x 600 Screen Resolution
22 x Cd Rom

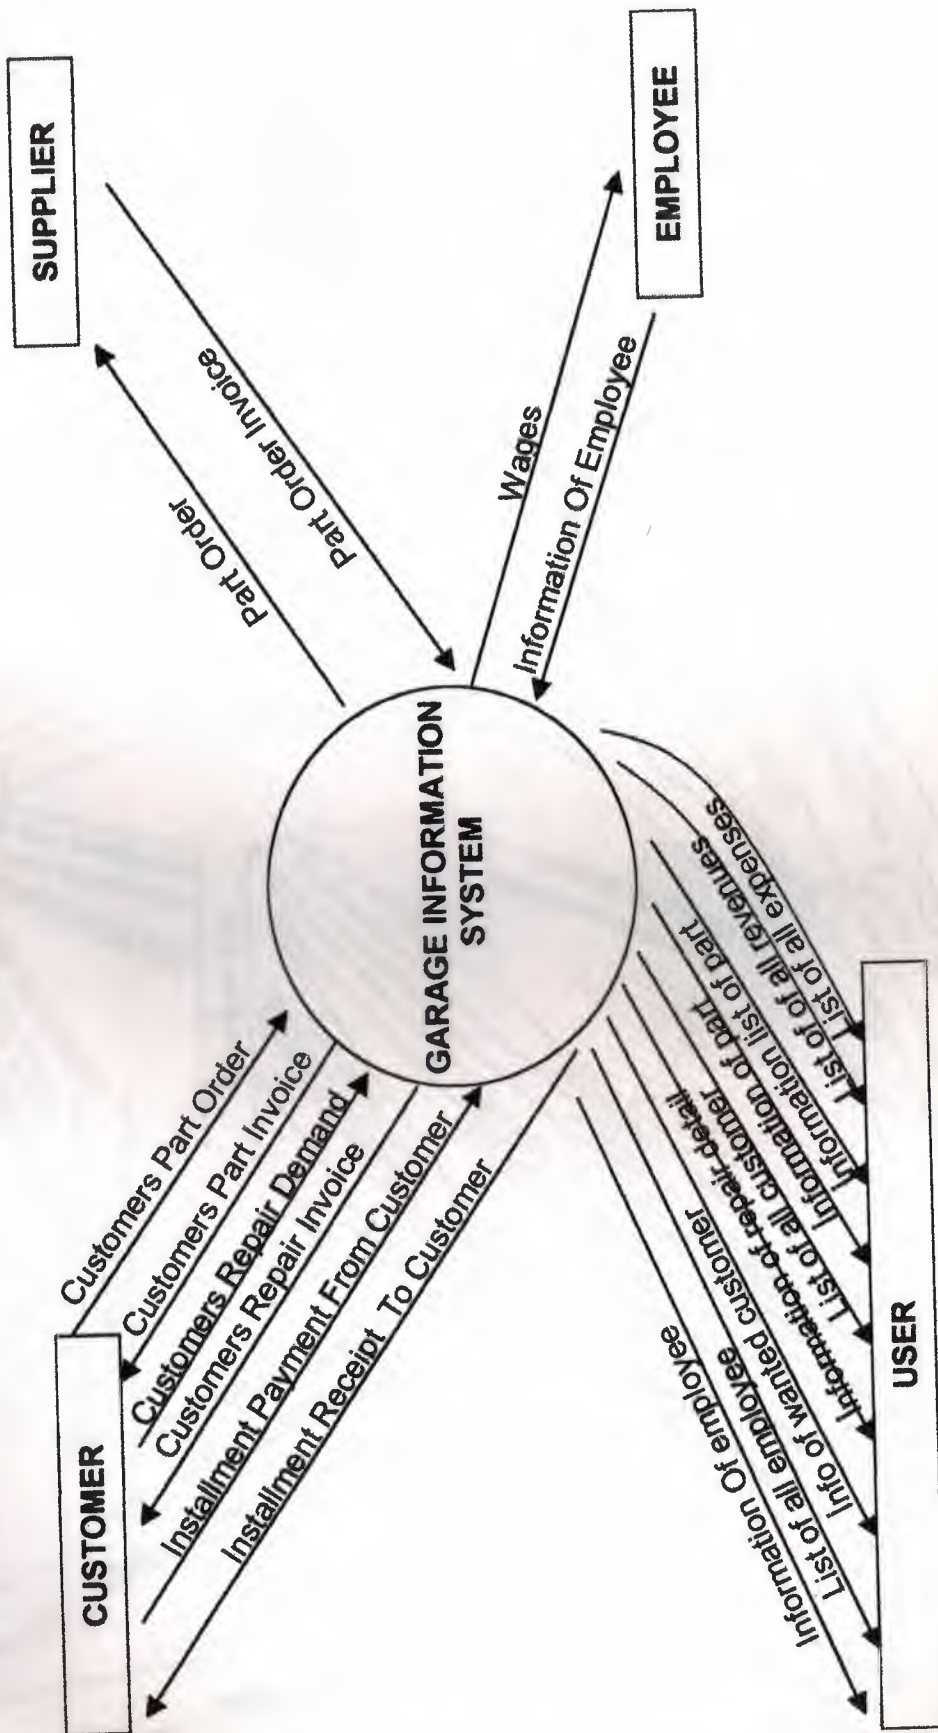

RECOMMENDED SYSTEM REQUIREMENTS TO EXECUTE PROGRAM

Windows 98
8.5 Gb harddisc
4 Mb VGA
550 Mhz Processor
128 Mb Ram
800 x 600 Screen Resolution
44 x Cd Rom

V – USER MANUAL

How To Install This Program:

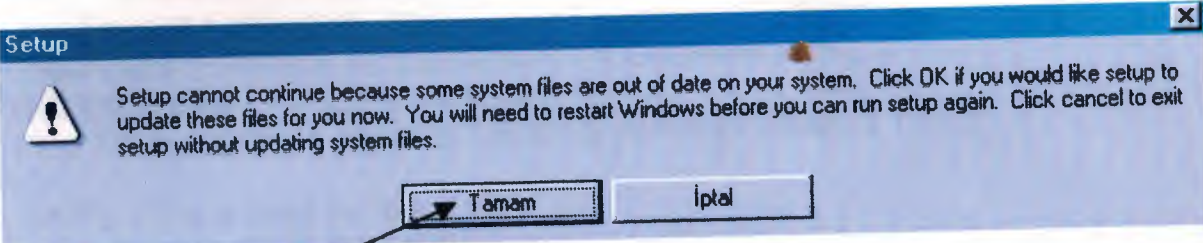

1- Put the CD into the CD ROM. Then click the "my computer" icon .

2- Click CD ROM icon to open CD. Then Click the icon .

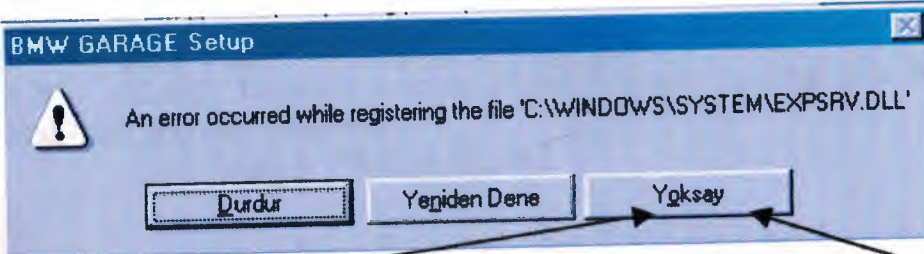

3- Now click the  icon. Now you will see the  icon.

4-  This is setup page. Click this icon to start installation.

5- The setup will guide you to install program successfully. But you may see the some messages like this. Click ok to update some system files.

6- 

Then you will see message again which ask you to reboot the computer. Click ok again. If everything okay then setup will start. Then you may see the messssage again like this;

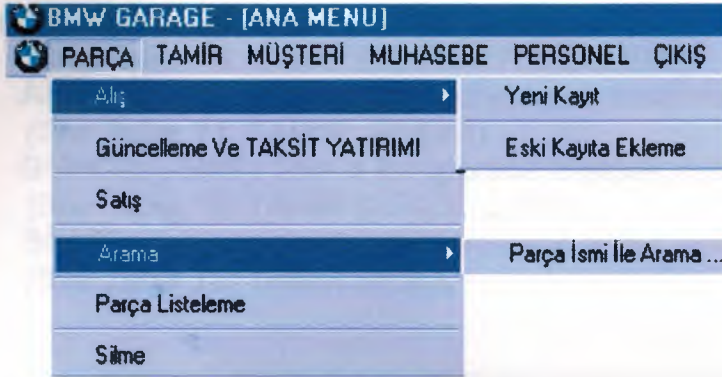

Click ignore. You may see this messssage twice. Both click ignore. After all this Your program will installed in your system. Now you can find the program by following these steps. Click START – PROGRAMS – BMW GARAGE. If you dont change the Installation destination then the program is in the "c:\PROGRAM FILES\Project1" file.

If you click BMW GARAGE then you will see the Main Menu section. Program has 5 Menus.

If you click the PARÇA menu then you will see the sub menus of it.
(See Table 1: ANA MENU)

1. PARÇA

1.1.1 ALIŞ(Yeni Kayıt) : This is for buying parts first time
(See Table 2: PARÇA ALIŞ YENİ KAYIT)

1.1.2 ESKİ KAYITA EKLEME : This is used for adding the already having part
(See Table 3: PARÇA ALIŞ ESKİ KAYITA EKLEME)

1.2 GÜNCELLEME : To upgrade the part.
(See Table 4: PARÇA GÜNCELLEME VE ALINAN FİRMAYA TAKSİT YATIRIMI)

1.3 SATIŞ : This is used for to sell part.
(See Table 5: PARÇA SATIŞ)

1.4 ARAMA : We can already search the part with its no so this is the searching part by name.
(See Table 6: PARÇA ARAMA)

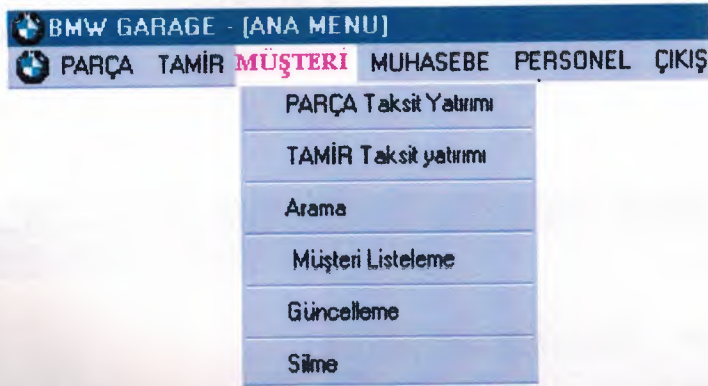

1.5 LİSTELEME : This is the listing process. You can list all information about parts.
(See Table 7: PARÇA LİSTELEME)

1.6 SİLME : Deleting process of the program. You can first search wanted part and than you can delete it.
(See Table 8: PARÇA SİLME)

2. TAMİR

- 2.1 **YENİ KAYIT** : This process allows user to add new coming repair customer.
(See Table 9: TAMİR YENİ KAYIT)
- 2.2 **ESKİ KAYITA EKLEME** : This process using when registered customer comes second time for repair.
(See Table 10: TAMİR ESKİ KAYITA EKLEME)
- 2.3 **ARAMA** : This is for searching the repair customer and his car's details.
(See Table 11: TAMİR ARAMA)
- 2.4 **GÜNCELLEME** : This is for upgrade to repair customer and his car details.
(See Table 12: TAMİR GÜNCELLEME)
- 2.5 **SİLME** : You can delete all information about repair customer and his car's.
(See Table 13: TAMİR SİLME)

3. MÜŞTERİ :

- 3.1 **PARÇA MÜŞTERİSİ TAKSİT YATIRIMI** : When a customer comes and wants to pay his debt user click this process.
(See Table 14: PARÇA MÜŞTERİSİ TAKSİT YATIRIMI)
- 3.2 **TAMİR MÜŞTERİSİ TAKSİT YATIRIMI** : When a repair customer comes and wants to pay his debt user click this process.
(See Table 15: TAMİR MÜŞTERİSİ TAKSİT YATIRIMI)
- 3.3 **ARAMA** : This is searching process of customer.
(See Table 16: MÜŞTERİ ARAMA)
- 3.4 **LİSTELEME** : The user can see all customer in datagrid listing.
(See Table 17: MÜŞTERİ LİSTELEME)
- 3.5 **GÜNCELLEME** : User can update the customer's informations.
(See Table 18: MÜŞTERİ GÜNCELLEME)
- 3.6 **SİLME** : This is the deleting process of customer.
(See Table 19: MÜŞTERİ SİLME)

4. MUHASEBE:

| BMW GARAGE - [ANA MENU] | | | | | |
|-------------------------|-------|---------|-----------------------|----------|-------|
| PARÇA | TAMİR | MÜŞTERİ | MUHASEBE | PERSONEL | ÇIKIŞ |
