GEOMAGNETIC FIELDS, EFFECTS ON HUMAN IMMUNOLOGY

AND

EFFECTS ON DEVELOPING CANCER

GRADUATION PROJECT SUBMITTED TO THE

ENGINEERING FACULTY

OF

NEAR EAST UNIVERSITY

By

Hasan Sefa KOÇ (20101796)

Ilkin AKSU (20102799)

Serkan BULKEN (20101827)

Supervisor: Dr ZAFER Topukçu

LEFKOŞA – 2013

INTRODUCTION

The body does not exist outside a magnetic environment, and it never has – even from the embryo stage of a human’s development. All biology on planet Earth is completely, entirely dependent on the Earth’s natural magnetic fields. The Earth is our natal mother in more ways than we know. We are forever dependent upon our “Magnetic Mother.” Only astronauts leave the Earth’s magnetic field—temporarily of course.

Fluctuation in the level of the earth's geomagnetic fields is associated with a number of health effects and disorders in humans. It often results in a stress called 'Geopathic Stress' which means suffering from a disease caused by radiations (vibrations) emanating from the earth. This phenomenon diminishes the efficiency of the body's immune system thereby paving the way for the build-up of other diseases including cancer.

ACKNOWLEDGEMENTS

We would like to express our sincere appreciation to our supervisor Dr. Zafer Topokçu for his valuable suggestions, patience, positive guidance and his great role in the development of this project and help given to us throughout the duration of our project.

We also express our warm thanks to Assist.Prof. Dr. Terin Adalı for her valuable support during our education here in Near East University.

This graduation project was generously supported by the Department of Biomedical Engineering of the Near East University. Thank you for all the supports and encouragements.

Table of Contents

Introduction	1
1. Earth	1
2. How the Magnetic Field of the Earth is formed	6
3. Magnetic Field of the Earth	10
3.1 Structure of the Field	12
3.2 The Earth's Magnetosphere	14
3.3 The Cause of Auroras	15
3.3.1 Auroras at Non-Visible Wavelengths	16
3.4 Dipolar approximation	17
3.5 Magnetic poles	18
4. Geomagnetic Waves and Their Properties	21
4.1 Crustal magnetic anomalies	23

5. The effects of Proportionate Geomagnetic Fields on Human.....	24
5.1 How are we dependent?	24
5.2 Earth’s Basic DC field	26
5.3 Schumann Resonances	28
5.3.1 Rocks	29
5.3.2 Solar	29
5.3.3 Environmental	30
6. Physical Effects of Solar Activities on Humans	31
7. Geopathic Stress	33
7.1 Definition	33
7.2 Origin of Geopathic Stress	33
7.3 Types of Geopathic Stress	34
7.4 Case Study	35
7.4.1 Flow of Underground Water	35

8. An Introduction to Dowsing	38
8.1 Principle of Dowsing	39
9. Medical Implications of Geopathic Stress	40
9.1 Physiological Symptoms	40
9.2 Pathological Symptoms	40
9.3 Sudden Infant Death Syndrome	42
9.4 Babies Crying	43
9.5 Post-Viral Fatigue, Myalgic Encephalomyelitis.....		44
9.6 Resistance to Treatment	46
10. Research into Geopathic Stress	50
11. Relationship between Sunspots and Cancer	58
11.1 Cancer Incidence with Sunspot Cycles	60
12. Cyprus Copper Mines and the Incidence of Cancer	61
12.1 Cancer cases seen in Cyprus is more than twice as seen in Turkey		61
Conclusion	63
References	65
